

# Pilot Implementation of Project CLICK

January 6, 2023

One of the beneficiaries of this undertaking is the Longos Elementary School, headed by its Principal Ms. Richie Castro. The main highlight of this project was the distribution of fifty (50) units of tablets to selected three (3) public schools in District 1 of the Province of Bulacan. The ceremonial signing and turn-over of devices to chosen students was held on January 6, 2023 at Longos Elementary School.

This important and beneficial project was spearheaded by the OFW Partylist, represented by Congresswoman Marissa "Del Mar" Magsino and the Department of Information and Communications Technology (DICT) as represented by Regional Director Reynaldo T. Sy, who were also present during the turn-over ceremony.

The student beneficiaries were also trained on the following topics: Internet Media and Information Literacy (IMIL), Cyber Hygiene, and Introduction to Digital Productivity Tools.

Our deepest and warmest gratitude to OFW Partylist and DICT!
